## **Myth Busters**

**Conventional Attitudes**      vs.      **The Truth About Incurable Disease**

Your doctor knows best.	Sadly, many don't.
All you can really do is take prescription drugs.	Wrong. You can do plenty to heal, prescription drugs being the least of it all.
We need a medical breakthrough to develop a cure for these diseases.	We can already heal from them right now without a cure.
The cure is going to be a magic bullet drug.	No one drug, herb, or food will ever reverse incurable disease.
We need to go after what's attacking the body.	We need to go after what makes the body healthy.
